MiND Token Wellness EAP Benefits

Your Member and family Assistance Program (EAP) offers immediate and confidential support to help you overcome challenges in your life. An experienced, masters-accredited counselor will work with you to understand your concern, provide support that best suit your needs, and guide you to resolution. MiND Token has combined staking with free professional mental health and telemedicine services to bring you MiND Staking.

MiNDblowing conceptualizaion. The MiND Token founders worked with LifeWorks to create a package that provides full EAP and telemedicine benefits to our partnered projects staff and team members - while ensuring that partnered project holders can gain access to services via the MiND staking system.

MiND is able to offer these benefits in several ways - free to any project that chooses us as their staking portal.

Partnered projects will be able to set their own APYs in the 1, 6, and 12-month staking pools.

Confidential counseling designed for your lifestyle and comfort level:

- Online group counseling- Attend scheduled group sessions on-line
- In-person counseling- Attend scheduled sessions at an office
- Telephonic counseling- Attend scheduled sessions over the phone
- E-Counseling- Professional counseling via email
- Video counseling- Attend scheduled sessions on-line at home.
- First Chat- Chat instantly with a counselor on-line; no apt. Needed

Staking MiNDset

MiNDfull

Projects receive a hosted staking pool where they load and select their APYs for 3 individual pools. The onboarding fee is one time with a small annual renewal fee.

MiNDset

Our token contract is currently being audited by Safetin and the staking contract has been looked over by the team at degem and will also undergo audits.

Productive

Partnered project staff and team will be given access to mental, legal, fitness, financial and telemedicine services immediately after partnership.

Wellness

Members will gain access once staking is live on any one of the 3 pools. The early withdrawal fee reduces over time.

Staking gets LifeWorks

The MiND Staking portal is a low-cost barrier system that enables access to EAP services for projects and communities.

MiND Staking

Your profitability in MiND. The development cost of a staking contract as safe and secure as ours is substantial, and monthly hosting fees can add up. We ensure your investment threshold is much lower and also provide the added benefits of our LifeWorks portal for free!

Key Benefits

- Free Mental Health support at your fingers worldwide!
- Free Telemedicine in the UK,US, and Canada.
- Access to many healthy lifestyle and fitness self help features for the complete wellness package.

Thank You

We have worked very hard to bring these services to crypto in a way that will help anyone who needs access and allow companies and projects to ensure their staff and team have the benefits they deserve as employees. Our goal is to make access to our services the standard in project management.
